## The new multifunction mower MOW-MM 152

The MOW-MM 152 multifunctional mower makes borderless mowing with grass collection possible in combination with our CLS material collection equipment. In addition, other mower inserts offer the option of mulching, rear discharge or, if desired, a standard side discharge with a sophisticated folding mechanism for the nozzle. Thanks to the robust design, mounting is possible by driving over the mower, but the optionally available quick-change system also ensures smooth mounting and dismounting from the side.

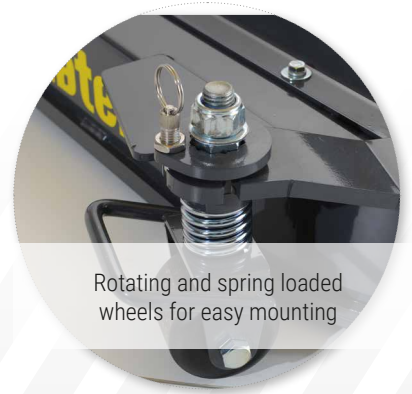

The mid-mount mower is available with a cutting height adjustment of 26 to 130 mm and a cutting width of 152 cm.

Side discharge with well conceived folding mechanism

Specially designed nozzle for borderless mowing

Rotating and spring loaded wheels for easy mounting

Technische Daten	MOW-MM 152
Cutting width	1520 mm
Cutting height from - to	26 - 130 mm
Weight	ca. 150 kg
Dimensions	1580 x 810 mm
Drive speed	2000 U/min
Knife speed	3000 U/min

Technische Daten	MOW-MM 152
Quantity knives	3
Borderless mowing	Option
Rear ejection	Option
Side ejection	Option
Mulching kit	Option

### ! Notice

So far, matev has developed a mower lift for the new Kioti CX 2510, with more mower lifts to follow.
